

On-Site Corporate Chair Massages into the Workplace

A PROBLEM MANY BUSINESSES FACE

\$16.6 billion lost
in productivity per year

How much Canadian
companies lose out when
workers calling in sick

500,000
workers

Absent from work
each week as a result of
mental health issues

Your staff is your most valuable asset.

When workers feel their employers care about their well-being, they are more likely to work harder for the company.

As the benefits of massage are realized, more businesses are offering chair massage in the workplace as an employee incentive and health maintenance resource.

Workplace massage can help reduce employee stress while improving overall job satisfaction.

Invest in Happy & Healthy Employees

At Soulful Indulgence, we bring the energy back to the workplace by **delivering on-site chair massages** to hardworking employees directly to your office.

What Is An On-Site Chair Massage?

A 10-30 minute massage in a portable massage chair administered by a professional massage practitioner.

It's convenient!
No need to change, shower, or leave the workplace.

A short massage relaxes the body and delivers an energy boost, empowering employees to stay refreshed and productive at work throughout the day.

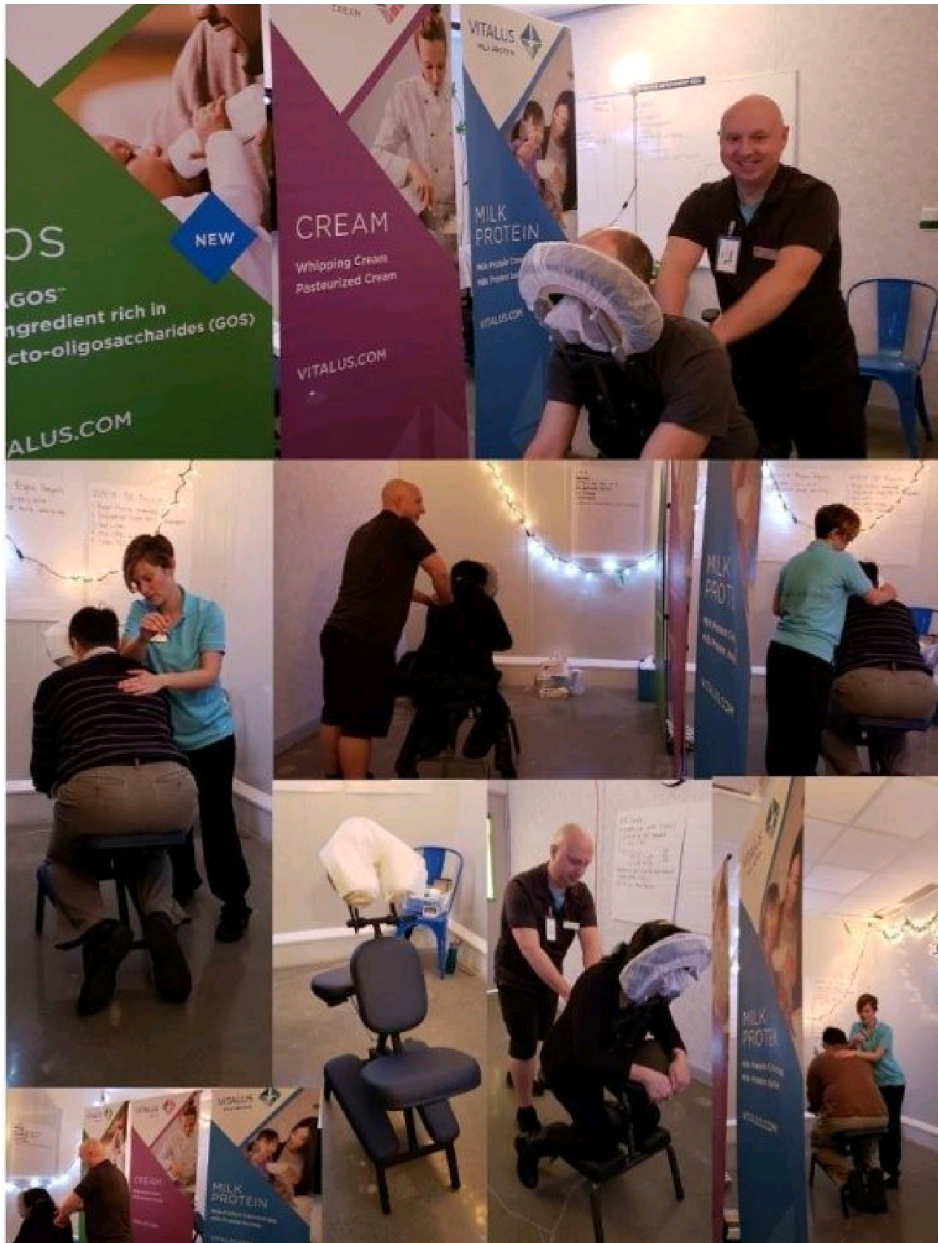

Is your company giving the
right message to employees?

**A majority of an employee's time
is spent at the workplace.**

Creating an on-site chair massage program
is simple to implement and fosters participation.

Here are a few of our employees enjoying the benefits of our recent On-site Massage Therapy Clinic facilitated by Soulful Indulgence.

A relaxing, rejuvenating session to enhance their workday!
